

# HARDWARE INTRODUCTIONS

**T.A.R. Upgrade**  
Total Acoustic Resonance (T.A.R.)  
Mounts are now connected under tuning lugs, no additional holes needed!

The "DUAL GLIDE SYSTEM" snare strainer mechanism features a technically perfected snare wire engage-and-release system. Both strainer and butt sides are equipped with a fast-release snare wire detach function.

**Dual Glide Snare Strainer Upgrade**  
Smooth and quiet strainer. Does not need to come off to replace heads!

**400 Series Mini Boom Stand**  
Retractable Boom Arm for easier transport and storage.

**New Badge**  
"Handcrafted in Germany - Since 1875"

**Cymbal Stand Upgrade**  
The Cymbal Sleeve and Washer are now one piece!

**400 Series Snare Stand**  
Toothless tilter for a more fine tuned adjustment.
